Congratulations Bryce!

We welcomed our speaker: Dale Shaver, the Land Use Director for Waukesha County to talk about the Waukesha Sustainability Plan. Dale gave us a comprehensive overview of some of the "Green Initiatives" that are planned as well as currently implemented. Highlighting: The usage of Geothermal heat exchange, more efficient lighting, exploration of solar & wind energy, material re-usage/recycling efforts, park & common area grounds having less maintained grass & "going back to nature" with natural plantings, transportation engineers encompassing roundabouts in city planning, asphalt reclamation, more walkable & bikable treks, salt usage reductions, alternative fuels for public vehicles, acquisitions of greenways :: All promising a greener, more efficient, and sustainable lifestyle in the future. Kudos to Dale & his colleagues for the forward thinking!
